

THE DESIGN TO IMPROVE LIFE COMPASS

DO-IT-YOURSELF (DIY)

Materials list

- Scissors
- Knife
- Paper clips
- Strong paper

Instructions

Print this page out on strong white paper.

1. Cut out the two discs.
2. Using the knife, cut a hole in the centre of each disc.
3. Cut the dotted line on the black disc.
4. Place the Compass over the black disc and hold them together using a paper clip in the centre.
5. Pull the small collar from the black disc out in front of the compass, so it functions like a pin.
